Each theme has the following materials:

- a book for the teachers: with attainment targets and the Canon, lessons, assignments, pupil tracking lists, and background information
- a work block with assignments for children (for each grade and optional)
- assignment sheets for children (can be copied)
- materials for the lessons, for example, wool, stones, and products that cannot be bought in the supermarket
- basic materials, such as Wildlife overview, Timelines, etc.
- digital materials: PowerPoint presentations and tests

There is also a digital learning environment in which children can complete with three assignments each lesson. Children can build a portfolio from these assignments.

The **DaVinci Academy** delivers custom made trajectories to implement the curriculum DaVinci within their schools and adapted to their own vision.
